(By Associated Press.)

WHITEPLAINS, Aug. 3.—Three alienists testified today that Harry Thaw was still insane. When Thaw himself was called to the stand he was quite nervous. Dr. Amos Baker, acting superintendent of Matteawan, gave the most important testimony. Baker said in his opinion Thaw was insane now and a dangerous man to be at large. Shortly after this declaration Jerome called Thaw to the stand. When adjournment was taken, Charles Morschauer, Thaw's attorney was cross-examining the state's experts.

HANDCUFFS TRAMPS TO TREES IN STREET

(By Associated Press.)

DELANCO (N. J.), Aug. 3.—A free lockup is the device by which Special Officer Hahner, the town's single policeman, has succeeded in ridding this neighborhood of the tramps who formerly infested it.

Unable to hold his tramp prisoners longer than a few hours because of a ruling of the county auditor which forestalled the commitment of tramps, Hahner struck upon a new scheme. He ordered an extra supply of handcuffs, and some of the tramps caught in the next raid were chained to trees in the village.

The experiment was a success. With no shelter and tormented by swarming mosquitoes from the nearby swamps, the culprits were glad to quit the town when brought before the constable and given their liberty.

NEW YORK, Aug. 3.—In the crowded Waldorf Astoria hotel today, Mrs. Mary A. Castle shot William D. Craig, a lawyer. The bullet, after striking a fountain pen, inflicted a slight flesh wound and dropped harmlessly in Craig's coat pocket. The shooting occurred as Craig was about to step into an elevator. When detectives arrived the woman was sitting on a lounge weeping hysterically. She pointed at Craig who was standing nearby, and after pleading with him to forgive her, said: "He's the cause of my troubles. He has thrown me over." Mrs. Castle said she was an

CHINAMAN UNDER ARREST PROVES TO BE BAD ACTOR

(By Associated Press.)

NEW YORK, Aug. 3.—Wong Bow Cheung, as he has been identified; or Matuda Woung, as he insists upon being named, the Americanized Chinese cook who shot and killed his vice consul, Dr. Luk Wing, Monday, was arraigned before the coroner today and committed to the Tombs to await the result of the inquest to be held tomorrow.

He slept soundly and ate well, but he seems depressed and refuses to answer questions.

What scanty information the police can gather about him is wholly in his discredit. The average Chinaman is industrious, but Woung had the reputation in Chinatown of being a hard drinker, an unsteady worker and chronically in want of cash.

Wingshiue S. Ho, the Chinese consul here, cannot believe that Dr. Luk Wing, whom he knew as the most gentle and painstaking of aides, ever treated the prisoner harshly or did anything to excuse the attack.

LEASER ON THE JIM BUTLER FINDS ORE

Yesterday the Jim Butler Mining company granted two more leases on their grounds in Tonopah, making a total of four already let. The first leases to be secured from the company were by Harry Epstine and Chris McCarthy, and Bert Gillispie and associates. The two signed yesterday were in the names of Lou Herring, C. H. Nicholson and J. P. Sparks, and Dan McNeil and associates.

Yesterday afternoon it became known that some high grade float had been found on the Herring, Nicholson and Sparks lease and a number of local mining men were attracted to the scene. The work only started yesterday morning and before long a large piece of float was uncovered. It is thought that the existence of the float has been known for some time and it has even been rumored that assays taken went \$114.70 to the ton, of which \$66 was in gold. It is impossible to determine if the place found is really float or the top of the ledge. It was found at about a depth of twelve inches from the

surface and the picking in the small hole plainly showed there was a greater quantity of the quartz therein. The ore is of the regular Tonopah variety and shows strongly of the sulphides. A trench has been started at a distance of thirty feet east of the find, which has attained a depth of about four feet and here also a vein of quartz has been uncovered. This vein may prove to be the extension of the original find or the work may prove the original to be float from this ledge. As it is, it remains for future development to prove up the ground and this will probably be done within the coming week, probably sooner.

This lease is situated on the Butler claim and composes an area of 300 feet in width by 600 feet in length. It has a duration of two years.

The lease secured by Dan McNeil is located on the McCulloch claim and is of a like duration.

It is highly probable that several more leases will be signed within the near future for the company has received many applications for blocks of ground. The royalties are on a sliding scale, according to the values of the ores extracted.

A. J. Amann, the well known mining man of southern Nevada, who now resides in Reno, was an arrival yesterday morning from the north. Mr. Amann leaves this morning for Ellendale.

WESTERN OPPOSITION HAS BEEN CLEARED UP

Language of the Tariff Bill Changed to Suit the Dissenters.

(By Associated Press.)

WASHINGTON, Aug. 3.—A complete collapse of all important opposition to the conference report on the tariff was evidenced today when the senate agreed to vote on the measure at 2 o'clock next Thursday. Half an hour after unanimous consent was given for that course, a disinclination on the part of the senators to speak brought an early adjournment until noon tomorrow.

The lack of interest was caused by the agreement of the western senators to vote on the conference report and to correct the hide and leather schedule by means of a concurrent resolution to be acted upon separately. The instructions were given by a resolution to the enrolling clerks of the senate and house to change the language of the provision reducing the duties on boots, shoes and harness.

In African Jungles Terrible Teddy and Kermit are Honored.

(By Associated Press.)

NAIROBI, Aug. 3.—Theodore Roosevelt and son, Kermit, were the guests of honor at a public banquet tonight. Frederick Jackson, governor of British East Africa, was chairman, and 175 persons at the tables. Captain Sanderson, the town clerk, read an address of welcome, and afterwards handed it to Roosevelt enclosed in a section of an elephant tusk mounted with silver.

American residents presented Roosevelt with a tobacco box made

from the hoof of a rhinoceros, silver mounted, the skull of a rhinoceros, also mounted with silver, and a buffalo head. Roosevelt in reply to the governor's toast thanked the people of British East Africa for their generous and courteous hospitality. He told them of the great agricultural and industrial future of Africa and said it presented an excellent opening for the capitalist. The home-maker and actual settler and not the speculator should be encouraged, making it a white man's country," he concluded.

CIGARETTES ARE NOW PROHIBITED IN MINNESOTA

(By Associated Press.)

MINNEAPOLIS (Minn.), Aug. 3. The cigarette is an outlaw in Minnesota. The new state law prohibiting the sale went into effect yesterday, and it is now illegal to put them on the market.

The cigarette market assumed a peculiar phase in the closing hours. The price varied and was as unsettled as the stock market after a flurry in Wall street. In the evening there was a shortage in popular brands at some cigar stores, and clerks sent up prices. Reports came in from other sections of the city that a fresh supply had arrived, which caused a rush to these stores.

The prices were kept at top notch. At least 1,000,000 cigarettes were sold in Minneapolis during the day. Nearly every store in the city sold almost its entire supply before the end came.

FIGHT FOR MOVING PICTURES ENDS FATALLY

PROVIDENCE (R. I.), Aug. 3.—"It was not a prize fight or a boxing bout but an exhibition for a moving picture machine," said Mr. Seaton Schroeder today in referring to the death of Hanson R. Foster, a colored messmate of board of the battleship Vermont last night. A committee of officers was appointed today to make an investigation. Those who saw the exhibition say the men went six rounds and then, as prearranged, Foster took the count. That was on Friday evening. The next morning the negro complained of pains in his head. He died last night. The autopsy revealed that Foster died of cerebral hemorrhage, caused by a blow or a fall.
